-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 July 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

1.Claim 18 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. This claim is confusing because it states that the mold is a captured silicon mold and that "the element is the captured silicon", thus indicating that the captured silicon is not really part of the mold but becomes part of the molded lug article. Clarification is required.

2.The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3.Claims 17 and 19-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bishop (5,019,312). Bishop discloses or suggests the basic claimed method of making lugs for joints in a bicycle frame made of composite fiber tubes including (1) making a lay-up of at least carbon or graphite fibers (column 3, lines 41-52) and a matrix material around the joint, (2) applying a mold to the tubes and laid-up fibers and matrix material, and (3) curing or causing reaction and setting (column 5, line 11) of the lug in the mold. It is submitted that the exothermic reaction disclosed by Bishop causes at least some expansion (as in claims 17, 19, 21 and 22) of the mixture 42 of microballoons and adhesive, which forms an element, at least a portion of which is located between the mold and the tubes because of the displacement of the mixture 42

described at column 4, line 66. The examiner takes Official Notice that it is known to form a bicycle frame from carbon fiber tubes.

Bishop also teaches or suggests the wrapping of the joint with carbon or graphite fabric, as in claims 20 and 23.

4. Applicant's arguments filed July 25, 2005 have been fully considered but they are not persuasive. Applicant's arguments are considered to be moot by the examiner based on the revised ground of rejection introduced in this Office action.

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Allan Kuhns whose telephone number is (571) 272-1202. The examiner can normally be reached on Monday to Thursday from 7:00 to 5:30.

Art Unit: 1732

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Colaianni, can be reached on (571) 272-1196. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
